Dear Harold,

I am sorry I have not written until now, but - among other things - my father has been ill.

I was delighted when I got "Oswald in New Orleans" - it is very well-written and seems as important now as it must have been when it was first published. Hopefully you have received the payment for it - if not, let me know.

Thank you also for your satisfactory clarifications regarding your critical epithets on Posner which I misunderstood.

Just a question concerning the Katzenbach memo which I have a copy of, thanks to you. You wrote in your last letter that you have

"a FBI memo saying that [Katzenbach] phoned Hoover the afternoon of 11/24/63 with his notion and that Hoover agreed" and

"documents indicating that LBJ knew and approved".

Do you refer to documents quoted or reprinted in your earlier books? If so, where do I find them? If not, could you send me copies of the documents?

Half of my own book on the Palme case is now ready for print as far as I am concerned and I have submitted it to a publisher for a preliminary decision. The rest of the book still needs some more editing. I am working hard on that while waiting for a reply from the publisher.

It will be a 1000-page book with a lot of controversial material so I expect some trouble before it goes to print. Some way it will, though.

Well, you know the frustrations inherent in dealing with publishers better than me. And, speaking of that: I sincerely hope that the problems with the publication of "Never Again!" are solved by now. I am convinced it deserves a large audience.

With best regards

Gunnar Wall
